COMMENTS: I am not very happy with the situation
the customers are in, concerning Ky Power Co's
gift giving grants as they call it. I didn't
think Utility Companies could make such a
profit to give people like S.O.A.R., Red Cross,
Bulky School just to name a few. I have nothing
against these people but I think it is not
Ky Power's place to do it. I would like
to have the extra money to distribute to my family
instead of who Ky Power decides to give it to. My
husband had a stroke and is unable to work now.
This makes it real hard on us and others like us.
I hope you let God help you decide on what
you should do because one day you will answer
to Him. You could find yourself with nothing
someday. Do the right thing because Ky Power
does not need the extra money! God
will hold you accountable for your decision!
Please let each person read this at PSC,
that will be voting.
