Subject: Case # 2017-00179

Sent from my iPad ...As a citizen of the city of Russell, I am against the rate increase sought by the Kentucky Power Company. Our area has lost around 650 jobs @ Ak Steel and 104 jobs from the Russell yards of CSX in the last 1 1/2 years. Families are still trying to recover and these good paying jobs have not been replaced even though there is hope on the horizon.

Also, we as customers have taken steps to reduce our usage from weatherizing to being cold in the winter and hotter in the summer due to adjusting our thermostats based upon common sense and what the power company advocates. Now they want to penalize us.

Kentucky Power should not be granted the increase until promised jobs are a reality. They need to make adjustments just like their customers do with loss of income or no increase in fixed incomes. They need to be held accountable and tighten their belts just like their customers have to do.

Thank you for this platform to be heard.....Ron Simpson, 128 Shenandoah Lane, Russell, Ky
41169

Subject: Comments on case #2017-00179

Dear Dear Kentucky Public Service Commission:

I am _____ (Briefly describe yourself) and a Kentucky Power customer.

I am very concerned about Kentucky Power's punishing proposals to raise our rates while rolling back energy efficiency programs.

-Eastern Kentuckians want want fair and affordable energy bills.

-We want Kentucky Power to do more not less - to help customers fix up homes and businesses to save energy and money.

-We want more clean energy choices so our homes, workers and communities can benefit from increasingly cheap solar power.

-And we want corporate accountability: AEP and Kentucky Power executives and investors should shoulder a fair share of the risk and costs.

Kentucky Power's proposal takes us in the wrong direction on nearly all those counts. It leaves eastern Kentucky ratepayers - not shareholders or executives - on the hook to pay for AEP's bad deals and bad decisions in other states. It hurts people on low and fixed incomes. It will send our monthly energy bills soaring, when they are already unacceptably high. This proposal delivers a body blow to our region at a time when we are struggling on so many

levels to stabilize our communities and build a brighter future together.

The Kentucky Public Service Commission must ensure that Kentucky Power's rates are fair and necessary, and that they don't unfairly punish low and moderate income people. For all those reasons, you must reject Kentucky Power's proposed rate increase. I'm another Kentuckian who believes the PSC should require Kentucky Power and AEP to shoulder their fair share of the risks and costs of bad business decisions, and should not allow them to reap excessive profits while our people suffer.

Lastly, once this rate case is over, I urge the members of the Kentucky Public Service Commission to use every shred of your power and authority to help shape a Just Transition to a clean energy future in Kentucky. Kentuckians need your help and leadership to ramp up energy efficiency programs statewide. We need your help and leadership to remove regulatory barriers to rooftop solar. We need your help and leadership to examine the unfair impact that many energy and consumer decisions have on low-income communities and communities of color in Kentucky. Here in eastern Kentucky and across our commonwealth, we can create good jobs and ensure affordable, reliable and clean energy. But we can't get there by doing things the way we've always done them. And we need your help.

Sincerely,

Tim Fuller

Dec 5, 2017

PSC Commission
KY

Dear Commission,

Kentucky Power proposes increasing my monthly basic service charge by \$6.50 per month--from \$11 to \$17.50. I attended a town forum a few weeks ago at Perry County Central High School to voice my opinion about the need to stop this unfair and expensive rate hike. The Kentucky Power rate hike will hurt all electric customers, myself included--but especially those on fixed incomes, like my mother. Her electric bill already goes as high as \$600/month in the winter, due to the fact that she lives in a double-wide trailer that is almost 50 years old. She struggles to pay such a ridiculous bill already and she's too proud to let me help her. Please just say "No" to another rate hike.

Sincerely,

Ms. Wanda Brown

Dear Commission,

When my husband lost a great deal (\$100,00.) because you converted to natural gas as a company & he is in coal business i DID NOT ask your company to pay my bills that i could no longer afford to pay!
Your company changed over against my wishes & that of all the little hard working people of Louisa! Louisa is already economically depressed..... you can't get milk from a turnip!!!
ENOUGH raising of the rates!! Agree to get a smaller profit awhile like my family has had to get along on a smaller salary!!! Enough said!!!!

Just say "No" to another rate hike.

Sincerely,

Mrs. Deborah Peet McMullen

Dear Commission,

I am opposed to the current request by KPC/AEP for another rate hike.

Previous KPC rate hikes have been exorbitant, and damaging to businesses and individuals in the already fragile economy of Eastern Kentucky.

My business has seen its electric bill rise from an average of \$700 per month to an average of \$1100...WITHOUT an increase in the amount of power used!!

Just say "No" to another rate hike.

Sincerely,

Mr. Michael Levinson

Dear Commission,

Kentucky Power proposes increasing my monthly basic service charge by \$6.50 per month -- from \$11 to \$17.50. Stop this unfair and expensive rate hike. The Kentucky Power rate hike will hurt all electric customers - especially those on fixed incomes.

Just say "No" to another rate hike.

Sincerely,

Mr. Donald Laney

With the high tax costs coming from Congress, anticipating cuts to Social Security and Medicare, higher costs to pensions, no one except the wealthy can afford higher prices to basic utilities. Please don't do this.

Subject: Increase

The reduction in both industry and residents in Kentucky is a direct result of power companies switching over to a more costly and wildly fluctuating new product. Without coal we have a drastically reduced work force. Without coal few people can afford to shop or eat out. Without coal we have to look for jobs elsewhere.

Now you expect US to pay for your poor decisions. I say no. Fix your own mess. I, for one, am fed up with being everybody's piggy bank.
