RE: Case 2017-00368  
New Wireless Facility at 850 State Route 348 East  
Symsonia, KY 42082

To Whom It May Concern:

I have been alerted to the news that you hope to put a cell phone tower near our address, 1514 New Harmony Rd., Benton, Kentucky 42025. My rural location would greatly benefit from this tower. My wife and I researched local internet options in our location when we moved in 2013. As long time ATT customers, we had hoped to obtain DSL services with your company, but were greatly upset when we discovered that you all did not service our location. We researched cable internet and found that \$15,000 was too great a cost for us to pay for their services. We also used Hughes satellite internet and the service was sketchy and expensive. Please, consider this location as one that would be greatly appreciated in our area. Our children could benefit a great deal due to the stringent requirements school work places on their internet needs.

Please, put a tower if not in this location, in one that our community benefits. If you have any questions, please feel free to contact me.

Sincerely,

Jason Ward
