Dec. 6, 2017

Please explain what these proposed rates mean to the general customer - residential, I am an L. U. & E. GAS customer. My electric is Salt River Coop

Also - industrial "users of raw material - who is industrial.

L. U. & E. always does this during the Christmas Season when customers are busy and now I believe they are trying to confuse us with negative numbers.

Respectfully,
Maalt E. Baker

PUBLIC SERVICE
COMMISSION

proposed changes in the electric and gas DSM tariffs to conduct an investigation of the proposed changes, LG&E will ask the Commission to approve the proposed changes in its to be effective on January 1, 2019.

The proposed changes to the DSM-EE program portfolio, if approved, will result in changes to the DSMRC calculated under the DSM tariff for all affected electric rate classes

**PUBLIC SERVICE
COMMISSION**

Rate RS, RTOD-E, RTOD-D, and VFD			
Current Charge per kWh	Proposed Charge per kWh	Difference per kWh	
\$ 0.00346	\$ 0.00154	- \$ 0.00192	
Rate GS			
Current Charge per kWh	Proposed Charge per kWh	Difference per kWh	
\$ 0.00131	\$ 0.00135	+ \$ 0.00004	
Rate PS and SPS			
Current Charge per kWh	Proposed Charge per kWh	Difference per kWh	
\$ 0.00086	\$ 0.00132	+ \$ 0.00046	
Rate TODS, TODP, RTS, FLS, STOD, and OSL			
Current Charge per kWh	Proposed Charge per kWh	Difference per kWh	
\$ 0.00023	\$ 0.00036	+ \$ 0.00013	

The proposed changes to the DSMRC rates for all affected gas rate classes are as follows:

Rate RGS and VFD			
Current Charge per ccf	Proposed Charge per ccf	Difference per ccf	%
\$ 0.01877	\$ 0.00086	- \$ 0.01791	
Rate CGS, IGS, AAGS, SGSS, and FT			
Current Charge per ccf	Proposed Charge per ccf	Difference per ccf	%
\$ 0.00102	\$ 0.00075	- \$ 0.00027	

LG&E proposes also to make available DSM-EE program to, and to apply DSM charges to, industrial customers.

For its electric tariff, LG&E is also revising its definition of "industrial" for the purposes of DSM to include only those customers engaged in activities primarily using electricity in a process from the earth or a change of raw or unfinished materials into another form or product. LG&E is also proposing an opt-out for industrial customers' meters serving energy-intensive loads. In addition, LG&E proposes to include DSM in the Adjustment Clauses section of Rate FLS because such customers will now be able to participate in DSM-EE programs and be opted out.

not general program? ← TIME OF DAY?

or its gas tariff, LG&E is adding a definition of "industrial" for the purposes of DSM to include only those customers engaged in activities primarily using gas in a process or process from the earth or a change of raw or unfinished materials into another form or product. LG&E is also proposing an opt-out for industrial customers' meters serving energy-intensive loads, defined

to be eligible to opt out, an industrial customer must state it has implemented cost-effective energy-efficiency measures not subsidized by other rate classes for the loads served by its meters. Industrial customers must submit an opt-out form to LG&E; properly completed and submitted opt-out forms will be processed and opt-outs implemented by the second full billing cycle following the date of submission. An industrial customer may seek to opt back into DSM charges and DSM-EE programs for opted-out meters as soon as one year after opting out. Any opted-in meter or meter that serves loads must be east three years after most recently opting in or participating in a DSM-EE program, whichever is later.

The estimated amount of the annual change and the average monthly bill to which the proposed DSMRC charges will apply for each electric customer class is as follows:

Electric Rate Class	Average Monthly Usage (kWh)	Annual \$ Increase	Annual % Increase
Residential	957		
Residential Time-of-Day	949	(7,857,584)	(55.3)

Ms. Lucille Beckner

(Secondary)	242,196	227,495	55.6	31.49
(Primary)*	1,532,521			199.23
Transmission*	7,356,472			956.34
Rating Load*	No customers on this rate			NA
Time-of-Day	105,967			13.78
or Sports Lighting Service	No customers on this rate			NA

es applicable to Rates TODP, RTS, and FLS assuming that industrial customers taking service under those rates will choose to opt out eligible meters. Therefore, LG&E does not anticipate such customers will or, the table above reflects the impacts to such customers if they elect not to opt out, though the DSMRC Charges, and particularly the DSM Billing Adjustment, may change to reflect the additional revenues from Charges.

change and the average monthly bill to which the proposed DSMRC charges will apply for each gas customer class is as follows:

Rate Class	Average Monthly Usage (Mcf)	Annual \$ Increase	Annual % Increase	Average Monthly Bill \$ Increase
Residential	5.5	(3,476,945)	(95.4)	(0.99)
Commercial	33.9	(29,778)	(26.4)	(0.09)
Industrial	609.4			(1.65)
Manufacturing	5,334.9			(14.40)
Public Gas Sales	247.5			(0.67)
Transmission	14,056.9			(37.95)
