Date: Wednesday, June 20, 2018 1:25:00 PM

Dear Ms. Carter:

Thank you for your comments on the application of Kentucky Utilities Co. and Louisville Gas & Electric Co. seeking authorization for deployment of an advanced metering system.

Your comments in the above-referenced matter have been received and will be placed into the case file for the Commission's consideration.

As you noted, the case number in this matter is 2018-00005. It would be helpful if you would please refer to it in any further correspondence.

The application and other documents in this case are available at http://psc.ky.gov/PSC_WebNet/ViewCaseFilings.aspx?case=2018-00005.

Thank you for your interest in this matter.

Subject: LGE rate hike. Case #2018-00005

I am a Louisville consumer of LG&E You are considering a substantial charge to Louisville customers in Case number 2018-00005, which has a total charge that will exceed \$350 million when return on investment is added in and most of that will be in the LG&E area.

Before you decide, you should hold a public hearing in Louisville for us customers to talk about the proposed Advanced Metering System costs and benefits. People in Louisville need the opportunity to hear and to respond.

Thank you,

Linda Carter

Subject: Case number 2018-00005

Dear Kentucky Public Service Commission:

I am an LG&E customer. I understand that you are considering a substantive charge to Louisville customers in Case number 2018-00005, which has a total charge that will exceed \$350 million when return on investment is added in, with most of that within the LG&E area.

Before any such decision, public hearing should be held in Louisville so customers can discuss the costs and benefits of the proposed Advanced Metering System. We need the opportunity to hear and respond.

Thank you,
Curtis Stauffer, 1921 Maplewood Pl. Louisville, KY 40205 5 [REDACTED]

Dear Kentucky Public Service Commission:

I am a Louisville consumer of LG&E.

I am aware that you are considering a substantial charge to Louisville customers in Case number 2018-00005, which as a total charge that will exceed \$350 million when return on investment is added in and most of that will be the LG&E area.

I am further concerned with regard to affordability with those who live on a budget from month-to-month - especially our senior citizens and low-income families. It is unfair to consider raising these substantial rates without a public hearing to hear from any customer that cares to provide input. A democratic and fair process is all I am requesting.

Before you make any final decisions, I urge you to host a public hearing in Louisville. It is

imperative that customers be given the chance to talk about the proposed Advanced Metering System costs and benefits. The people of Louisville need this opportunity to be heard and to respond.

Thank you for your time and deep consideration in acting in a fair and democratic manner.

Sincerely,
Joetta Venneman

Subject: Request for hearing on case number 2018-00005

Dear Members of the Kentucky Public Service Commission:

I am a Louisville consumer of LG&E who is very interested in the substantial charges to Louisville customers in Case number 2018-0005. I understand that the total charge of this change would exceed \$350 million when return on investment is added in and most of that will be in the LG&E area.

While educated customers like myself may not disagree with all of these changes, they are sizable enough that we should have an opportunity to hear about them in a public hearing and be offered the opportunity as customers to talk about the proposed Advanced Metering System costs and benefits. People in Louisville need the opportunity to hear and to respond.

Thank you in advance for this consideration.

Sincerely,

Natalie Harris
