Ky Public Service Commission

I can't afford a raise on my water bill. I am on a fixed income I am a disabled senior citizen. I can't even afford my medicine. I have a very low immune system and i have 4 rods cages & spacers in my back it is hard to even get bottled water. Do not raise our bills please. It is not our fault that the money was not used to take care of the water. I live in a county that does not take care of their own thats Martin Co. Please do not raise our water bill we pay enough for it now. We are own a fixed income us seniors we cannot not grow money on Trees. It only means that you will be taking food & medicine from us. We half to buy our water to drink. The water is only good to flush toilets, you can't cook in it. We half to bath in it. Wash dishes, The water will make your clothes stink. Do not raise our water bills.

49.5 raise
is ridiculous
we cannot pay this

Cathy Smith
Martin Co. Ky.
