PUBLIC SERVICE
COMMISSION

Lex, Ky

Dear members of PSC

my name is Robert Preece and
I live in Lex Martin Co, Ky.

as you know we have water
problems here in our County. The
Martin County Water Board MC.W.B.
is making a request to raise our
water bill by fifty percent 50%.

I and most residents of Martin
Co. hope you refuse that request.

We recommend the desolution of
the MC water department get rid of
it and the people who have been
in charge of its operation (plant
manager, plant finance person, County
judge, magistrates, and C.P.A. financial
records people. Then give your help
in getting another source of water,
perhaps, Prestonsburg, Kermit, W.Va water

company, and Pike county water,
if you can, get a financial
account of the McWater company
for as many years they have
been in business. How much
money have they taken in, How
much money have they paid
out, and to whom and what
have they paid it. We need
all the help we can get. We
cannot live without water

Sincerely
Robert B. Preece

pardon me I don't know
if desolution is a word, but
it sounds like what needs to be
done RDP (sorry, It is dissolution)
