PUBLIC SERVICE
COMMISSION

Dear Sir:

I strongly object to raises
the rates as printed in the
Central Record Sept 27th, 2018.

Rates are increasing more
rapidly than the sensor income.
People in the lower income
group have a more difficult
time coming up with extra
money than people who work
and are getting paycheck to
pay check.

Put your overhead expenses
if you need too - but no more
increase. I haven't gotten a
raise in 9 yrs + keep my
thermostat on 54° in the winter.
It can't go much further than
that w/out freezing my pipes.

Regards
