Case: 2018 00295

COMMENTS: I am apposed to a
charge being assessed to
our electric meters be
cause I alledge that
in ten or twelve years
I have had three or
four meters installed
which drove the cost
of my electric bill
up despite I was careful
not to use electricity
unless necessary.
I find it unconscionable
that LG&E is always search
ing for ways to collect
more money from citizens
however our service
does not improve.
I say no to the charge
LG&E is seeking.
