I believe that all changes need to ^{be} proven that they will not just not-harm low-income, ~~and~~ ^{rooftop} solar and energy efficiency, but be proven to enhance + encourage energy efficiency, rooftop solar + low income citizens. No side stepping - only forward movement!

All Kentuckians need and deserve affordable and clean energy. This rate case moves us in the wrong direction. The LG&E and KU plan is bad for consumers, harmful to people on low and fixed incomes, and damaging to energy efficiency and rooftop solar. Kentuckians deserve so much better than this. The KY Public Service Commission must open up its public process and reject this rigged deal.
