COMMENTS: The expense of
LT+E is unconscionable
and I believe west
Louisville residents can
prove we have been taken
advantage for decades.
We have had a series of
meters put at our homes
over a period of 6-8 years
and the number of changes
in meters has been 3 or 4.
Our bills still skyrocket even
when we are using less &
less electricity. In comparison
to the size of our west end
homes to East end homes there
appears to be inequity in
the amount charge to west
End residents vs East in
residents in Jefferson County.
