The information requested herein is due no later than April 4, 2018. Responses to requests for information in paper medium shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to the questions related to the information provided.

Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or the person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

Careful attention shall be given to copied material to ensure that it is legible. 1. Refer to the response to Commission Staff's first request for information ("Staff's first request"), Item 1. This response shows that during the period under review, Kentucky Power took more deliveries under spot purchases, than long-term contracts. Explain how Kentucky Power determines the percentages of spot versus contract coal it procures.

2. Refer to the response to Staff's first request, Item 2. This response shows that for the two Alpha Coal Sales contracts, and the Consolidation Coal Company contract, that more tons were received in the review period than the tonnage requirement.

Explain if these excess tons are carryover tonnage that is being made up, or if the contracts are ahead of schedule.

3. Refer to the response to Staff's first request, Item 16. For the months of May, September, and October 2017, explain what caused the variances between the capacity factors for Mitchell units 1 and 2.
