COMPANY FROM MAY 1, 2017 THROUGH	)

ORDER

On May 18, 2018, the Commission entered an Order approving the Fuel Adjustment Clause (“FAC”) for Louisville Gas and Electric Company (“LG&E”) for the six-month period that ended on October 31, 2017. On May 25, 2018, LG&E filed a motion requesting clarification of the May 18, 2018 Order. As grounds for its motion, LG&E states that in the testimony of Derek A. Rahn filed on March 2, 2018, LG&E requested approval of a proposed change in its Form A filing it makes monthly with the Commission. LG&E states that the proposed change will properly account for sales associated with buy-through power requested by Curtailable Service Rider (“CSR”) customers and will more accurately reflect that the CSR buy-through credit is a reduction to total recoverable fuel costs for the expense month, regardless of whether LG&E generated the power provided during the curtailment or purchased the power.

The Commission notes that LG&E’s request was made in filed testimony and not in the form of a motion. The Commission further notes that the Commission does not need to formally approve, in every instance, changes in a utility’s monthly FAC form that it files with the Commission. To the extent, however, that LG&E wishes express approval

of the proposed changes to its Form A monthly FAC filing, the Commission will grant such approval.

IT IS THEREFORE ORDERED that:

1. LG&E's motion for clarification is granted.
2. The proposed changes to LG&E's Form A monthly FAC filing are approved.
3. This case is closed and removed from the Commission's docket.
