BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC APPLICATION OF LOUISVILLE	)	
GAS AND ELECTRIC COMPANY FOR AN	)	CASE NO.
ADJUSTMENT OF ITS ELECTRIC AND GAS	)	2018-00295
RATES	)	

COMMISSION STAFF'S FIRST REQUEST FOR INFORMATION  
TO LOUISVILLE GAS AND ELECTRIC COMPANY

Louisville Gas and Electric Company (LG&E), pursuant to 807 KAR 5:001, is to file with the Commission an original and an electronic version of the following information. The information requested herein is due on or before either 14 days after submission of the rate application or 21 days after the date of this request, whichever is later. Responses to requests for information in paper medium shall be appropriately bound, tabbed and indexed. Electronic documents shall be in portable document format (PDF), shall be searchable and shall be appropriately bookmarked.

Each response shall include the name of the witness responsible for responding to the questions related to the information provided. Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or the person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

LG&E shall make timely amendment to any prior response if it obtains information, which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect. For any request to which LG&E fails or refuses to furnish all or part of the requested information, it shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention shall be given to copied material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations. When filing a paper containing personal information, LG&E shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so that personal information cannot be read.

1. Provide a copy of the current bylaws. Indicate any changes made to the bylaws since the utility's last general rate case.
2. Provide the current organization chart, showing the relationship between the utility and any affiliates, divisions, etc. Show the relative positions of all entities and affiliates with which the utility routinely has business transactions.
3. Provide the capital structure at the end of the 10 most recent calendar years and each of the other periods shown in Schedule 3a and Schedule 3b.
4. Provide the following:
  - a. A list of all outstanding issues of long-term debt as of the end of the latest calendar year together with the related information as shown in Schedule 4a.

b. An analysis of short-term debt as shown in Schedule 4b as of the end of the latest calendar year.

5. Provide a list of all outstanding issues of preferred stock as of the end of the latest calendar year as shown in Schedule 5.

6. Provide the following:

a. List all issues of common stock in the primary market during the 10 most recent calendar years as shown in Schedule 6a.

b. The common stock information on a quarterly and yearly basis for the five most recent calendar years available, and through the latest available quarter as shown in Schedule 6b.

c. The market prices for common stock for each month during the five most recent calendar years and for succeeding months through the date the application is filed. List all stock splits and stock dividends by date and type.

7. Provide a computation of fixed charge coverage ratios for the 10 most recent calendar years as shown in Schedule 7.

8. Provide the utility's internal accounting manuals, directives, and policies and procedures.

9. Provide the utility's budget instructions, assumptions, directives, manuals, policies and procedures, timelines, and descriptions of budget procedures.

10. Provide the studies, including all applicable work papers, which are the basis for plant allocations and expense account allocations.

11. Describe the procedures the utility uses to plan and approve construction projects.

12. Provide the utility's long-term construction planning program.
13. Concerning the utility's construction projects:
  - a. For each project started during the last 10 calendar years, provide the information requested in the format contained in Schedule 13a for electric and gas operations separately. For each project, include the amount of any cost variance and delay encountered, and explain in detail the reasons for such variances and delays.
  - b. Using the data included in Schedule 13a, calculate the annual "Slippage Factor" associated with those construction projects for electric and gas operations separately. The Slippage Factor should be calculated as shown in Schedule 13b.
  - c. In determining the capital additions reflected in the base period and forecasted test period, explain whether the utility recognized a Slippage Factor.
14. Provide the following monthly account balances and a calculation of the average (13-month) account balances for most recent calendar year:
  - a. Plant in service (Account No. 101);
  - b. Plant purchased or sold (Account No. 102);
  - c. Property held for future use (Account No. 105);
  - d. Completed construction not classified (Account No. 106);
  - e. Construction work in progress (Account No. 107);
  - f. Depreciation reserve (Account No. 108);
  - g. Materials and supplies (include all accounts and subaccounts);
  - h. Computation and development of minimum cash requirements;

i. Balance in accounts payable applicable to amounts included in utility plant in service (If actual is indeterminable, give reasonable estimate.);

j. Balance in accounts payable applicable to amounts included in plant under construction (If actual is indeterminable, give reasonable estimate.); and

k. Balance in accounts payable applicable to prepayments by major category or subaccount.

15. Provide a reconciliation and detailed explanation of each difference, if any, in the utility's:

a. Electric capitalization and net investment rate base for the base period.

b. Gas capitalization and net investment rate base for the base period.

16. Provide a rate base, capital structure, and statement of income for electric and gas operations of the utility for the most recent 12-month period for which information is available at the time it files its application and for the base period used in the application. Provide detailed explanations necessary to reconcile the data for the 12-month period with the filed base period information.

17. Provide the information shown in Schedule 17 for each construction project in progress, or planned to be in progress, during the 12 months preceding the base period, the base period, and the forecasted test period separately for electric and gas operations.

18. Provide separately for electric and gas operations, in the format provided in Schedule 18, an analysis of the utility's Construction Work in Progress (CWIP) as defined in the Uniform System of Accounts for each project identified in Schedule 17.

19. Provide a calculation of the rate or rates used to capitalize interest during construction for the three most recent calendar years. Explain each component entering into the calculation of the rate(s).

20. Provide, in the format provided in Schedule 20, an analysis of the gross additions, retirements, and transfers for each major functional electric plant property group or account for the utility occurring in the base period and forecasted test period. For any account in which transfers regularly occur in the normal course of business, include a general description of the nature of the transfers.

21. Provide the following information for each item of electric and gas property or plant held for future use at the beginning of the base period:

- a. Description of property;
- b. Location;
- c. Date purchased;
- d. Cost;
- e. Estimated date to be placed in service;
- f. Brief description of intended use; and
- g. Current status of each project.

22. List all properties leased to the utility and all improvements to leased properties, together with annual lease payments that are capitalized, in the format provided in Schedule 22.

23. Provide a listing of all non-utility property and accounts where amounts are recorded. Include a description of the property, the date purchased, and the cost.

24. Provide the journal entries relating to the purchase of gas and electric utility plant acquired as an operating unit or system by purchase, merger, consolidation, liquidation, or otherwise since the utility's, or its predecessor's, inception. Also, provide a schedule showing the calculation of the acquisition adjustment at the date of purchase or each item of utility plant, the amortization period, and the unamortized balance at the beginning of the base period.

25. Provide a copy of the utility's most recent depreciation study. If no such study exists, provide a copy of the utility's most recent depreciation schedule. The schedule should include a list of all facilities by account number, service life, and accrual rate for each plant item, the methodology that supports the schedule, and the date the schedule was last updated.

26. Provide the utility's cash account balances at the beginning of the most recent calendar year and at the end of each month since then.

27. Provide separately for electric and gas operations the average number of customers on the utility's system (actual and projected), by rate schedule, for the base period and the three most recent calendar years.

28. Provide a schedule showing a comparison of the balance in the revenue accounts for each month of the most recent 12-month period for which information is available at the time the utility files its application to the same month of the immediately preceding 12-month period for each revenue account or subaccount included in the utility's chart of accounts. Include appropriate footnotes to show the month each rate change was approved and the month the full impact of the change was recorded in the accounts. See Schedule 28.

29. Provide a copy of each cost-of-service study and billing analysis filed with the utility's rate application in Excel spreadsheet format with all formulas intact and unprotected and with all columns and rows accessible.

30. Provide the following expense account data:

a. Separate electric and gas schedules, showing a comparison of the balance in the utility's operating expense accounts for each month of the most recent 12 months for which information is available at the time the application is filed to the same month of the preceding 12-month period for each account or subaccount included in the utility's chart of accounts. See Schedule 30.

b. Separate electric and gas schedules, in comparative form, showing the operating expense account balance for the base period and each of the three most recent calendar years for each account or subaccount included in the utility's annual report. Show the percentage of increase or decrease of each year over the prior year.

c. A listing, with descriptions, of all activities, initiatives or programs undertaken or continued by the utility since its last general rate case for the purpose of minimizing costs or improving the efficiency of its operations or maintenance activities.

31. Provide a schedule of electric operations net income per kWh sold and gas operations per MCF sold, per company books for the base period and the three calendar years preceding the base period. This data should be provided as shown in Schedule 31a and 31b.

32. Provide the comparative operating statistics for electric and gas operations as shown in Schedule 32a and 32b.

33. List separately the budgeted and actual numbers of full- and part-time employees by employee group, by month and by year, for the three most recent calendar years, the base period, and the forecasted test period.

34. Provide the information requested in Schedule 34 for budgeted and actual regular wages, overtime wages, and total wages by employee group, by month, for the five most recent calendar years. Explain in detail any variance exceeding five percent in any one month.

35. Provide all wage, compensation, and employee benefits studies, analyses, or surveys conducted since the utility's last rate case or that are currently utilized by the utility.

36. For each employee group, state the amount, percentage increase, and effective dates for general wage increases and, separately, for merit increases granted or to be granted in the past two calendar years, the base period, and the forecasted test period.

37. Provide a schedule reflecting the salaries and other compensation of each executive officer for the base period and three most recent calendar years. Include the percentage annual increase and the effective date of each increase, the job title, duty and responsibility of each officer, the number of employees who report to each officer, and to whom each officer reports. For employees elected to executive officer status since the test year in the utility's most recent rate case, provide the salaries for the persons they replaced.

38. Describe in detail how the base period capitalization rate was determined. If different rates were used for specific expenses (i.e., payroll, clearing accounts,

depreciation, etc.), indicate the rate and how it was determined. Indicate all proposed changes to the capitalization rate and how the changes were determined.

39. Provide all current labor contracts and the most recent labor contracts previously in effect.

40. Provide each group medical insurance policy that the utility currently maintains.

41. Provide detailed descriptions of all early retirement plans or other staff reduction programs the utility has offered or intends to offer its employees during either the base period or the forecasted test period. Include all cost-benefit analyses associated with these programs.

42. Concerning employee fringe benefits:

a. Provide a detailed list of all fringe benefits available to the utility's employees and the expected cost of each benefit in the base period and the forecasted test period. Indicate any fringe benefits that are limited to management employees.

b. Provide comparative cost information for the 12 months preceding the base period and the base period. Explain any changes in fringe benefits occurring over this 24-month period.

43. Provide a complete description of the utility's Other Post-Employment Benefits package(s) provided to its employees.

44. Provide a complete description of the financial reporting and ratemaking treatment of the utility's pension costs.

45. For each of the following Statements of Financial Accounting Standards (SFAS), provide the information listed concerning implementation by the utility.

a. SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions."

- (1) The date the utility adopted the SFAS.
- (2) The effect on the financial statements.
- (3) Whether the base period or forecasted test period includes

any impact of the implementation. If so, provide a detailed description of the impact.

b. SFAS No. 112, "Employers' Accounting for Postretirement Benefits."

- (1) The date the utility adopted the SFAS.
- (2) The effect on the financial statements.
- (3) Whether the base period or forecasted test period includes

any impact of the implementation. If so, provide a detailed description of the impact.

c. SFAS No. 143, "Accounting for Asset Retirement Obligations."

- (1) The date that the utility adopted the SFAS.
- (2) The effect on the financial statements.
- (3) Whether the base period or forecasted test period includes

any impact of the implementation. If so, provide a detailed description of the impact.

d. A schedule comparing the depreciation rates utilized by the utility prior to and after the adoption of SFAS No. 143. The schedule should identify the assets corresponding to the affected depreciation rates.

e. SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans."

- (1) The date the utility adopted the SFAS.
- (2) The effect on the financial statements.

(3) Whether the base period or forecasted test period includes any impact of the implementation. If so, provide a detailed description of the impact.

46. As the historical data becomes available, provide detailed monthly income statements for each forecasted month of the base period including the month in which the Commission hears this case.

47. Provide the amount of excess deferred federal income taxes resulting from the reductions in the corporate tax rate in 1979, 1986, and 2018, as of the end of the most recent calendar year. Show the amounts associated with each reduction separately.

48. Provide the following tax data for the most recent calendar year:

a. Income taxes:

(1) Federal operating income taxes deferred – accelerated tax depreciation.

(2) Federal operating income taxes deferred – other (explain).

(3) Federal income taxes – operating.

(4) Income credits resulting from prior deferrals of federal income taxes.

(5) Investment tax credit net.

(i) Investment credit realized.

(ii) Investment credit amortized – Pre-Revenue Act of 1971.

(iii) Investment credit amortized – Revenue Act of 1971.

(6) The information in Item 48a(1-4) for state income taxes.

(7) A reconciliation of book to federal taxable income as shown in Schedule 48a(1) and a calculation of the book federal income tax expense for the base period using book taxable income as the starting point.

(8) A reconciliation of book to state taxable income as shown in Schedule 48a(2) and a calculation of the book state income tax expense for the base period using book taxable income as the starting point.

(9) A copy of federal and state income tax returns for the most recent tax year, including supporting schedules.

(10) A schedule of franchise fees paid to cities, towns, or municipalities during the test year, including the basis of these fees.

b. An analysis of Kentucky Other Operating Taxes as shown in Schedule 48b.

49. Provide the following information with regard to uncollectible accounts for the three most recent calendar years for electric and gas operations:

- a. Reserve account balance at the beginning of the year;
- b. Charges to reserve account (accounts charged off);
- c. Credits to reserve account;
- d. Current year provision;
- e. Reserve account balance at the end of the year; and
- f. Percent of provision to total revenue.

50. Provide the utility's written policies on the compensation of outside attorneys, auditors, consultants, and all other professional service providers. Include a schedule of fees, per diems, and other compensation in effect during the base period.

Include all agreements, contracts, memoranda of understanding, and any other documentation that explains the nature and type of reimbursement paid for professional services. Indicate if any changes have occurred since the test year of the utility's last base rate case, the effective date of these changes, and the reason for these changes.

51. Provide a detailed analysis of expenses for professional services during the most recent 12-month period for which information is available at the time the application is filed, as shown in Schedule 51, and all work papers supporting the analysis. At a minimum, the work papers should show the payee, dollar amount, reference (i.e., voucher no., etc.), account charged, hourly rates and time charged to the company according to each invoice, and a description of the services provided.

52. Provide the following information. If any amounts were allocated, show a calculation of the factor used to allocate each amount.

a. A detailed analysis of charges booked for advertising expenditures during the most recent 12-month period for which information is available at the time the application is filed. Include a complete breakdown of Account No. 913 – Advertising Expenses, and any other advertising expenditures included in any other expense accounts, as shown in Schedule 52a. The analysis should specify the purpose of the expenditure and the expected benefit to be derived.

b. An analysis of Account No. 930 – Miscellaneous General Expenses for the most recent 12-month period for which information is available at the time the application is filed. Include a complete breakdown of this account as shown in Format 52b and provide detailed work papers supporting this analysis. At a minimum, the analysis should show the date, vendor, reference (i.e., voucher no., etc.), dollar amount,

and brief description of each expenditure of \$500 or more, provided that lesser items are grouped by classes as shown in Schedule 52b.

c. An analysis of Account No. 426 – Other Income Deductions for the most recent 12-month period for which information is available at the time the application is filed. Include a complete breakdown of this account as shown in Schedule 52c, and provide detailed work papers supporting this analysis. At a minimum, the analysis should show the date, vendor, reference (i.e., voucher no., etc.), dollar amount, and brief description of each expenditure of \$500 or more, provided that lesser items are grouped by classes as shown in Schedule 52c.

53. Provide a copy of all exhibits and schedules that were prepared in the utility's rate application in Excel spreadsheet format with all formulas intact and unprotected and with all columns and rows accessible.

54. Regarding the utility's employee compensation policy:

a. Provide the utility's written compensation policy as approved by the Board of Directors.

b. Provide a narrative description of the compensation policy, including the reasons for establishing the policy and the utility's objectives for the policy.

c. Explain whether the compensation policy was developed with the assistance of an outside consultant. If the compensation policy was developed or reviewed by a consultant, provide any study or report provided by the consultant.

d. Explain when the utility's compensation policy was last reviewed or given consideration by the Board of Directors.

55. Explain whether the utility's expenses for wages, salaries, benefits and other compensation included in the base period, and any adjustments to the base period, are compliant with the Board of Director's compensation policy.

56. Explain, if prior to reflecting any adjustments to wages, salaries, benefits, and other compensation in the rate application, whether the utility, through an outside consultant or otherwise, performed a study or survey to compare its wages, salaries, benefits, and other compensation to those of other utilities in the region, or to other local or regional enterprises.

a. If comparisons were performed, provide and discuss the results of such comparisons. Include the results of the study or survey with your response, including all work papers.

b. If comparisons were not performed, explain why such comparisons were not performed.

57. List all present or proposed research efforts dealing with the pricing of electricity and the current status of such efforts.

58. Provide an analysis of the utility's expenses for research and development activities for the base period and the three most recent calendar years. The analysis should include the following:

a. Basis of fees paid to research organizations and the utility's portion of the total revenue of each organization. Where the contribution is monthly, provide the current rate and the effective date.

b. Details of the research activities conducted by each organization.

- c. Details of services and other benefits provided to the utility by each organization.
- d. Annual expenditures of each organization with a basic description of the nature of costs incurred by the organization.
- e. Details of the expected benefits to the utility.

59. Provide the following information concerning the costs for the preparation of this case:

a. A detailed schedule of expenses incurred to date for the following categories:

- (1) Accounting;
- (2) Engineering;
- (3) Legal;
- (4) Consultants; and
- (5) Other Expenses (Identify separately).

For each category, the schedule should include the date of each transaction, check number or other document reference, the vendor, the hours worked, the rates per hour, amount, a description of the services performed, and the account number in which the expenditure was recorded. Provide copies of contracts or other documentation that support charges incurred in the preparation of this case. Identify any costs incurred for this case that occurred during the base period.

b. An itemized estimate of the total cost to be incurred for this case. Expenses should be broken down into the same categories as identified in (a) above, with an estimate of the hours to be worked and the rates per hour. Include a detailed

explanation of how the estimate was determined, along with all supporting work papers and calculations.

c. Provide monthly updates of the actual costs incurred in conjunction with this rate case, reported in the manner requested in (a) above. Updates will be due when the utility files its monthly financial statements with the Commission, through the month of the public hearing.

60. Provide the following information for the most recent calendar year concerning the utility and any affiliated service corporation or corporate service division/unit:

a. A schedule detailing the costs, those directly charged, and those allocated by, the utility to the service corporation. Indicate the utility's accounts where these costs were originally recorded. For costs that are allocated, include a description of the allocation factors utilized.

b. A schedule detailing the costs, those directly charged, and those allocated by, the service corporation to the utility. Identify the utility's accounts where these costs were recorded. For costs that are allocated, include a description of the allocation factors utilized.

61. Provide the following information for the most recent calendar year concerning all affiliate-related activities not identified in response to Item 61:

a. Provide the names of affiliates that provided some form of service to the utility and the type of service the utility received from each affiliate.

b. Provide the names of affiliates to whom the utility provided some form of service and the type of service the utility provided to each affiliate.

c. Identify the service agreement with each affiliate, state whether the service agreement has been previously filed with the Commission, and identify the proceeding in which it was filed. Provide each service agreement that has not been previously filed with the Commission.

Calculation of Capital Construction Project Slippage Factor

Source: Schedule 13a – Construction Projects

Year	Annual Actual Cost	Annual Original Budget	Variance in Dollars	Variance as Percent	Slippage Factor
Totals					
10 Year Average Slippage Factor (Mathematic Average of the Yearly Slippage Factors / 10 years)					

The Annual Actual Cost, Annual Original Budget, Variance in Dollars, and Variance as Percent are to be taken from Schedule 13a. Total all projects for a given year.

The Slippage Factor is calculated by dividing the Annual Actual Cost by the Annual Original Budget. Calculate a Slippage Factor for each year and the Totals line. Carry Slippage Factor percentages to 3 decimal places.
