

Case No. 2018-00002

RECEIVED

APR 04 2018

PUBLIC SERVICE
COMMISSION

Dear Executive Director's Office,

I am very disappointed in this decision to allow Appalachian Wireless to put an tower behind the substation on Maple Street. After Attending 2 meeting at the City Councils and making a decision for the substation. We were promised there would be NO TOWER Behind it. We were told they would Be Good Neighbors. That we wouldn't know it was there. There would be good upkeep to the lot. Now just because the lot that connects is on Breckinridge does not mean it does not appear to be on Maple. There are many studies of people getting Cancer from living near cell phone towers. I personally do Not want to take a chance after their 30 year contract is over to see if the studies are right or wrong.

Please Consider We as this Neighborhood was told this would Not Happen and make A decision to Not Allow us to Be Lied too! Thanks

Tim & Darla Benningfield
