Dear PSC, im writing regarding case 00036, if you guys can obtain the savings thru Ky utilities and LG&E, theirs no reason you cant get a reduction from Duke energy, I went to hearing on Feb 5th at Boone county high school, I made these points Duke energy of FLA, rescinded their rate increase of 500 million over a 3 yr period to get back their money from Hurricane Irma, and Duke Energy of NC had requested a 7% increase, they rescinded their rate hike increase, many Energy companies across the United States gave back 160 million to

80 million due to tax cuts,Duke has. No right to raise rates when all companies are giving back. Many of us live on fixed incomes, we cant afford 17% increases, I guess my question is if Duke declines to raise rates, Can they backdoor the customers thru surcharges, like the smart meter for \$25 a month if customer declines or the increase to pay for the poor to have energy, which now is voluntary, that is deception if they try, please dont let Duke raise rates especially when all companies including Duke are giving back, thank you for writing back and we appreciate you for being our watch dog. Signed Douglas P. Massie.
