PUBLIC SERVICE  
COMMISSION

dear Commissioners

my late husband had electricity with South Kentucky REA for many years. Recently my daughter was watching a trial at the Kentucky utility commission concerning my local cooperative. We have always struggled to make ends meet and South Kentucky REA has worked with us when times were tight. I love my local cooperative and it makes me happy they are working to keep my electricity bill low and I thought I should write to say how much I appreciate it. Please keep the elderly and poor in your considerations and help my cooperative keep our electric bills low.

Mrs. J. Johnson
