Angel & Michael Angel

194 Harold Leforce Road

To whom it may concern:

Please note, as a resident of Harold Leforce Road, I am positively against the development/construction of a cell phone tower anywhere near our neighborhood for the following reasons:

1. I am concerned about the long term, Environmental/Health concerns a cell tower could have on the residents. I am sure you are aware of the numerous studies, citing environmental/health dangers from cell towers. If there is even the slightest risk for health concerns we are totally opposed. I have children and grandchildren, as do most of the residents on our road. Our family's health is top priority.
2. What effect will a cell tower have on property values on Harold Leforce Road? I most definitely do not foresee a cell tower making the value of our property increase.

Thank you,

Michael & Angela Angel
