Concerned!!

I'm writing about the Rate INCREASE that INTER CO. ENERGY COOP. CORP. IS PROPOSING.

They shouldn't be entitled a Rate INCREASE BECAUSE they are already one of the highest "Energy Charged (per kWh) IN the state!

So is the INCOME that they receive IN. less than what they are spending out.

They have always put a article IN the Ky Living Mag. about how to Reduce Energy Use.

So all these's LED Bulbs Ky Residents spent thousands of DOLLAR'S ON; AT their Request, CURVED their INCOME they receive IN?

(AUTO)

1/2011

Also, there should be a Reduced
Rate Per "Kwh" for Senior
Citizen, we are on a fixed
Income and we can't afford
any higher Electric Bills.
