Inter County Energy Operative of Danville KY is asking for a rate increase. While I understand they have not increased rates for many years, they are still higher than AEP's KU. Being a monopoly should not give them any right to be higher than another company nearby.

Also, over 100 utility companies across the US are cutting rates due to the Trump tax cuts. What is IC Energy doing with those cuts?

I know IC Energy is privately owned so they did receive a substantial tax cut.

Please do not let them increase rates at this time. They really picked the wrong time for this increase.
