Home phone: [REDACTED]

Utility Name: Duke Energy Kentucky

State the nature of your concern: Duke Energy Kentucky (#2018-00261) Requesting a rate increase in natural gas of 10.5%,decoupling mechanism, approval of new tariffs, and all other required approvals and relief. The Green Energy New Deal is a radical plan to raise utility bills replacing fossil fuels with solar panels and green energy projects which are more Expensive and less Efficient. The Global Warming and Climate Change advocates funnel money into left-wing industries. They advocate shutting down our natural gas, oil and coal mines in the name of green energy projects. Obama's oath to destroy our Kentucky coal mines left many of our counties devastated and destroyed Kentucky's coal mining economy. STOP the Green Energy New Deal and restore our valued natural resources. Corporate welfare is alive and well. Lynn J. Good, CEO Duke Energy \$13.5 M, 2016, \$21.5 M, 2017(total compensation). What did Lynn J. Good and her cohorts make for 2018? The numbers are not yet available. STOP the DSM welfare programs as we in the United States are supporting those whom refuse to work and take responsibility for themselves. When will it STOP? The Proverbial: Robbing Peter to pay Paul as its only 10.5% for Duke (2018-00261) and only 11.6% for NKWD (2018-00291)leaving Peter with not much of anything left to spare!  
Have you contacted the utility about the problem: Yes

**Importance:** High

Gentleman and Ladies,

I read today of a new request for natural gas rate increases by Duke Energy.

Simply tell them to stop giving away money to failed projects and phony community outreach and they will have millions more to line their pockets!

Simple request deserves a simple response.

Regards,

Tim Conner  
Northern Kentucky Resident
