Sept 26, 2018

Public Service Commission & Ky Utilities:

Lets see another raise in power rates.

Increase in School TAXS (2) times this summer.

one thing for sure we homeowners & retired people

get no Respect. Only Hope you will take care

to give us a break. I'm told they generate with

Solar and Coal. Maybe we would have gotten a

break with Coal. Oh well I'm sure this is a waste

of time but so far I have more of that than money.

And it seems like we will be challenged again to keep

The lights on."

Sincerely Upset,

Rebecca C Abner
