PUBLIC SERVICE
COMMISSION

10-22-18

To: Public Service Commission

I'm discouraged to hear your raising my residential KU bill 11.7% or approx. \$13,47 per month.

I'm disabled and on a fixed income so what this means to me is 4 less meals to eat per month. \$13,47 is probably less than 1/2 of a KU workers ^{hourly} salary but to many it is far more.

I worked 27 yrs before becoming disabled and I learned a few things. One of which is ~~that~~ more wasted fat at the top then at the bottom. K.U. should look at every area of company to lean out the fat before taking meals away from people like me.

Please work smarter and be honest before making this decision. God is watching.

Thank You,

Eric Smith
