PUBLIC SERVICE
COMMISSION

CASE # 2018-00294

I'm an disabled veteran and a senior trying to live on a fixed income. This increase is more than a cost of living increase and should have exemptions for people like me. Seems like your company is only concerned about its share holders and profit. People like me will have to decide ~~what~~ whether to eat, stay warm, or sit in the dark! It's becoming extremely hard to make ends meet, maybe you should try and save company money by cutting back on your payroll and daily expenses.
