To whom it may concern  
I think the proposed rate  
KW is asking for is excessive and  
will be a burden on people,  
like me, with fixed incomes.  
I am 79 yrs. old and can barely  
and with sacrifices, live even  
a somewhat comfortable life.  
I am asking that for the  
Commission members take a hard  
look at this request for rate  
increase by KW.  
Thanks for your considerations
