

Greetings:

My name is Kenneth Blevins, I live in Liberty, Ky. I am concerned about the request by R.U. to drastically increase the rates they charge for residential consumers. I am a pastor of a small church and know first hand how devastating this could be for many people. There are many people who do not stay warm enough in winter, because they can't afford it, they are on fixed income and can do no more!

Please consider this, when you consider case # 2018-00294.

Thank you
Kenneth Blevins
