Date: Wednesday, February 20, 2019 11:22:55 AM

Dear Kentucky Public Service Commission,

Please reject Louisville Gas and Electric and Kentucky Utilities proposed rate increases.

This is an unjust, unfair, and unreasonable proposal that is contrary to Kentucky law. I, the undersigned, call on the Public Service Commission to deny this rate change!

These proposals will hurt many customers, especially low- and fixed-income people, apartment dwellers and people who attempt to conserve energy. They will limit our ability to save money by reducing our energy use. And they will discourage many people from installing rooftop solar or energy efficient systems, steps which are needed to lower harmful pollution and protect our health and climate. These rates are unfair, unjust and a step in the wrong direction.

Sincerely,

Allison Bleuel

Date: Tuesday, February 19, 2019 5:52:23 PM

Dear Kentucky Public Service Commission,

Please reject Louisville Gas and Electric and Kentucky Utilities proposed rate increases.

This is an unjust, unfair, and unreasonable proposal that is contrary to Kentucky law. I, the undersigned, call on the Public Service Commission to deny this rate change!

These proposals will hurt many customers, especially low- and fixed-income people, apartment dwellers and people who attempt to conserve energy. They will limit our ability to save money by reducing our energy use. And they will discourage many people from installing rooftop solar or energy efficient systems, steps which are needed to lower harmful pollution and protect our health and climate. These rates are unfair, unjust and a step in the wrong direction.

Sincerely,

Dear Kentucky Public Service Commission,

Please reject Louisville Gas and Electric and Kentucky Utilities proposed rate increases.

I, the undersigned, call on the Public Service Commission to deny this rate change. Our household tries very hard to limit our energy usage by keeping the temperature very low in winter and hot in the summer. We plan to install solar panels within the next year. A mandatory rate hike discourages consumers from taking these steps that are essential for our environment.

Furthermore, these proposals will hurt many other customers, especially low- and fixed-income people and apartment dwellers. will limit our ability to save money by reducing our energy use.

Sincerely,

Lauren Lloyd

Dear Kentucky Public Service Commission,

Please reject Louisville Gas and Electric and Kentucky Utilities proposed rate increases.

This is an unjust, unfair, and unreasonable proposal that is contrary to Kentucky law. I, the undersigned, call on the Public Service Commission to deny this rate change!

These proposals will hurt many customers, especially low- and fixed-income people, apartment dwellers and people who attempt to conserve energy. They will limit our ability to save money by reducing our energy use. And they will discourage many people from installing rooftop solar or energy efficient systems, steps which are needed to lower harmful pollution and protect our health and climate. These rates are unfair, unjust and a step in the wrong direction.

Sincerely,

Thomas Kirk
860 Chimney Rock Rd
Harrodsburg, KY 40330

Subject: Public Comment Dockets No. 2018-00294 and 2018-00295, Kentucky Utilities and Louisville Gas and Electric Rate Cases
Date: Tuesday, February 19, 2019 11:44:08 AM

Dear Kentucky Public Service Commission,

Please reject Louisville Gas and Electric and Kentucky Utilities proposed rate increases.

This is an unjust, unfair, and unreasonable proposal that is contrary to Kentucky law. I, the undersigned, call on the Public Service Commission to deny this rate change!

These proposals will hurt many customers, especially low- and fixed-income people, apartment dwellers and people who attempt to conserve energy. They will limit our ability to save money by reducing our energy use. And they will discourage many people from installing rooftop solar or energy efficient systems, steps which are needed to lower harmful pollution and protect our health and climate. These rates are unfair, unjust and a step in the wrong direction.

Sincerely,

Doug Cottrell

Dear Kentucky Public Service Commission,

Please reject Louisville Gas and Electric and Kentucky Utilities proposed rate increases.

This is an unjust, unfair, and unreasonable proposal that is contrary to Kentucky law. I, the undersigned, call on the Public Service Commission to deny this rate change!

These proposals will hurt many customers, especially low- and fixed-income people, apartment dwellers and people who attempt to conserve energy. They will limit our ability to save money by reducing our energy use. And they will discourage many people from installing rooftop solar or energy efficient systems, steps which are needed to lower harmful pollution and protect our health and climate. These rates are unfair, unjust and a step in the wrong direction.

Sincerely,

John Scott

Subject: Public Comment Dockets No. 2018-00294 and 2018-00295, Kentucky Utilities and Louisville Gas and Electric Rate Cases
Date: Saturday, February 16, 2019 2:53:15 PM

Dear Kentucky Public Service Commission,

Please reject Louisville Gas and Electric and Kentucky Utilities proposed rate increases.

This is an unjust, unfair, and unreasonable proposal that is contrary to Kentucky law. I, the undersigned, call on the Public Service Commission to deny this rate change!

These proposals will hurt many customers, especially low- and fixed-income people, apartment dwellers and people who attempt to conserve energy. They will limit our ability to save money by reducing our energy use. And they will discourage many people from installing rooftop solar or energy efficient systems, steps which are needed to lower harmful pollution and protect our health and climate. These rates are unfair, unjust and a step in the wrong direction.

Sincerely,

Steve Hegge
