Write your personal message here: *With S.B. 100, you're eliminating current and future jobs for Kentuckians. You're also helping discourage any one with an interest in solar energy. Stop keeping us from moving forward towards renewable energy. Stop needlessly raising our rates unless you're encouraging all of us to live off GRID!*

All Kentuckians need and deserve affordable and clean energy. This rate case moves us in the wrong direction. The LG&E and KU plan is bad for consumers, harmful to people on low and fixed incomes, and damaging to energy efficiency and rooftop solar. Kentuckians deserve so much better than this. The KY Public Service Commission must open up its public process and reject this rigged deal.
