PUBLIC SERVICE
COMMISSION

12/03/2018

To the Public Service Commission,

I have received a notice from the Kentucky-American Water Company concerning the proposed water service revenues rate increase of 22.6% or more its customers. It also proposes additions to its tariff to include a qualified infrastructure program.

I am sure you are aware of the arguments for and against rate increases, but we experience water and utility rate increases every year with little or no objections and no one seeming to be care about the burden this puts upon individuals and families.

I get paid by the hour and do not have deep pockets or unlimited resources. I struggle to make ends meets just like a lot of other people. So, I URGE you to reject this rate increase.

With regards,

Steve Strunk
