

To the Public Service Commission of Kentucky,

I am a customer of the B&H Gas Company of Betsy Layne Kentucky. I want to protest the tremendous increase in rates requested by the owner of B&H Gas Company filed on December 28<sup>th</sup>, 2018. I feel that such an increase would force a great hardship on myself and my neighbors in this community. This area of the state has suffered from a great number of job losses recently and rising costs in electricity and taxes in this area have already put a hardship on the people living in this poverty stricken area of Kentucky. I can understand a slight increase in the rates may be warranted but this increase will almost double our bills each month. I sincerely hope the commission considers all aspects of how this increase could affect the customers of B&H Gas Company.

Sincere Regards,

Nadine Mitchell
