Re: Johnson County Gas Company 12/28/18 application for rate increase

As a residential customer of the Johnson County Gas Company I am requesting the Kentucky Public Service Commission intervene in regards to this company's December 28th 2018 application to raise its rates. The rates proposed by the Johnson County Gas Company in this application are excessive and unreasonable. Per the PSC's mission statement to ensure utilities charge fair, just, and reasonable rates, I am requesting the PSC intervene and deny the proposed rate increase.

Thank You.
