PUBLIC SERVICE  
COMMISSION

1953 Latham Lane  
Lebanon, KY 40033  
Sept. 3, 2019

Dear Sirs:

Net metering must be allowed to provide energy and to help stop climate change. I am considering solar power so I need rates that net metering will help to provide. There must be a comprehensive cost/benefit analysis for the value of solar also.

Sincerely,  
Mrs. Barbara H. Warner
