For any request to which Kroger fails or refuses to furnish all or part of the requested information, Kroger shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention shall be given to copied material to ensure that it is legible. 1. Refer to the Direct Testimony of Justin D. Beiber (Beiber Testimony), page 6, line 1.
   a. Explain what constitutes a narrow range for peaks to fall within.
   b. Explain whether this range only applies to Duke Energy Kentucky, Inc., (Duke Kentucky), and whether it is generally used for all utilities.

2. Refer to the Beiber Testimony, page 10, lines 12-23, and continuing onto page 11, lines 1-9. Confirm that the proposed revenue allocation removes Duke Kentucky's proposed 5 percent subsidy reduction in favor of a subsidy reduction based upon a pro rata basis proportional to the current subsidy.
3. Refer to the Beiber Testimony, Exhibit JDB-1. Provide in Excel spreadsheet format with all formulas unhidden and all columns and rows accessible.

4. In Duke Kentucky’s cost-of-service study, Mr. Ziolkowski applies the minimum system methodology for the allocation of poles, overhead conductors, underground conductors, transformers between customers, and demand-related costs. Explain whether Kroger supports the use of the minimum system.
