## PARTIES OF RECORD

Re: Case No. 2019-00154  
Electronic Application of Kentucky Power Company for a Certificate of Public Convenience and Necessity to Perform Upgrade, Replacement, and Installation Work at its Existing Substation Facilities in Perry and Leslie Counties, Kentucky

Attached is a copy of the memorandum which is being filed in the record of the above referenced case. If you have any comments you would like to make regarding the contents of the informal conference memorandum, please do so within five days of receipt of this letter. If you have any questions, please contact Quang Nguyen, Staff Attorney, at 502/782-2586.

Sincerely,

A handwritten signature in blue ink that reads "Gwen R. Pinson".

Gwen R. Pinson  
Executive Director

## INTRA-AGENCY MEMORANDUM

### KENTUCKY PUBLIC SERVICE COMMISSION

**TO:** Case File – Case No. 2019-00154

**FROM:** Quang D. Nguyen, Assistant General Counsel 

**DATE:** August 28, 2019

**RE:** Informal Conference of July 30, 2019

Pursuant to an Order issued on July 24, 2019, an informal conference (IC) was held at Kentucky Power Company's (Kentucky Power) Hazard Substation located at 1400 East Main Street, Hazard, Kentucky, on July 30, 2019. The IC was held at the request of Kentucky Power to allow Commission Staff and the Office of the Attorney General view the general condition of the Hazard Substation and the various components that are proposed to be upgraded and replaced. In attendance were representatives from Kentucky Power, Commission Staff, and the Office of the Attorney General. The attendance sheet for IC is attached to this memo.

After brief introductions and safety protocols of the substation area, Kentucky Power representatives provided an overview of the current configuration of the Hazard Substation and described the upgrades and replacements that are the subject of Kentucky Power's application in this matter. A slide presentation provided by Kentucky Power is attached to this memo. After a question and answer session, the attendees then proceeded outside to examine and inspect the substation area along with the various facilities and physical assets that are outdated and proposed to be replaced by Kentucky Power. The attendees then travelled to and examined a nearby substation that was relatively newer as compared to the Hazard Substation and included transmission assets that were of more recent vintage.

There being no further discussion, the IC was then adjourned.
