Letters of recommendation or commendation are available upon request.

With my job at South KY RECC, the members I worked with are also members of Western Pulaski Water District. I still have a good relationship with them. I GPSed all of the utility poles and meters at their homes. I feel a GPS system would benefit the Water Company on the future use of collecting information on water meters and the homes they serve and will help the billing department in the future. With the training I have had in mapping and the new mapping program software that's available, I feel I can help bring this on board in the future.

Thank you for considering me for this position.

Sincerely,

Mitch Robertson

Subject: Letter of Recommendation for Mitchell Robertson

To Whom It May Concern:

Mitchell Robertson has been one of South Kentucky RECC's most valued employees for many years.

Mitchell is a hard working self-starter who is quick to grasp the complexity of a project and work it through to completion promptly and effectively. He has accomplished all major assigned tasks effectively and easily. He meets all deadlines, completing all assignments ahead of schedule.

He is resourceful, creative, thorough and comprehensive. He frequently thinks of new imaginative solutions to assigned projects and functions extremely well as a team member. He coordinates assignments well both within his team and with other departments.

Mitchell has superior written and verbal communication skills. He interacts well with employees and members. He is highly respected both as a professional and as a person by staff, management, employees, and the general public.

I believe Mitchell to be a very conscientious and able employee and certainly believe he has what it takes to succeed in any endeavor he undertakes. I strongly recommend him for a position on the Western Pulaski County Water Board.

If you have any further questions, please feel free to call me at 606-678-4121

Sincerely,

A handwritten signature in black ink that reads 'Dennis Holt'.

Dennis Holt
VP of Engineering and Operations
