

I am writing this about my concerns over the surcharge for LG+E's environmental surcharge. I am concerned whether this work is going to be done with LOCAL workers, union or non-union, as we are the one's paying for this. The last time a major project was done down on Dixie Hwy. LG+E plant, 80% of the vehicles in the lot were out of state. If this project is being paid for with a surcharge on Louisville taxpayers, the work should be done by local workers.
