Subject: Case Related Question

To whom it may concern: Regarding the notice of proposed increase.

My name is Alonso Calderon and my friend Anita Mendenhall live at 413 East Jackson Street here in Clinton KY 42031, we are both low income individuals, my friend Anita is on a fixed income any increases in the amount of services paid monthly would be catastrophic and the same goes for me too. My friend Anita is on social security disability, me, I work under the table hauling steel scrap for somebody, my pay and work is not always guaranteed, I barely make enough money to cover my rent and utilities monthly. I am writing to you guys to maybe accomodate our situation and perhaps many others living in our area who are in the same situation. We as Americans are taxed enough as it is, we don't need any increases to our utilities to exacerbate our fixed income

allowances. Thank you for taking the time to hear me out on this matter, I hope to hear from you guys in the near future.

Name: Michael Mace

Address: 420 Englewood Road

City: Middlesboro

State: Kentucky

Zip Code: 40965

Phone number where you can be reached: [REDACTED]

Home phone: [REDACTED]

Utility Name: Water Services Corp of Kentucky

State the nature of your concern: Received notice today, June 5, 2020, that water prices will be increased 46-48%, there is absolutely no way people like myself on social security can afford that kind of increase. I am requesting that the Public Service Commission intervene and stop this extremely high increase. If the people of social security got that kind of raise I wouldn't complain, but it's already been told we won't even get a 1.5% raise. People out of work because of a pandemic they can't afford this kind of increase either. This needs to be stopped, they should get the same raise as social security does.

Have you contacted the utility about the problem: Yes

Subject: Utilities Inc Proposed Rate Increase

Dear PSC,
The rate increase proposed by Utilities Inc. of 38% is outlandish. The PSC is suppose to protect the

public for such an outlandish increase of a public utility. The water service has not changed the pipe system is the same electric rates have not increased so the outlays by this company does not justify such an increase in my town of Clinton. If they did improvement elsewhere in their system it would not justify increases in my town. This is an affront to the public to allow a corporation to gouge the citizens with a 1/3+ increase in rates. I Strongly oppose any such increase.
