To whom it may concern,

We are writing this email in support of Kenergy Corp to provide broadband service to all it's customers. I feel this is as important today with the Covid19 situation as electricity was in it's birth.

Our school children are at risk of not being able to learn in homes that are not able to get internet.

We live in a rural area and are currently using TDS.Net and pay for 15mbs and get .82 to as high as 7mbs during the day and evening. Middle of the night as high as 13 mbs  
Not very strong.

We strongly urge you to grant Kenergy's request to provide this service.

Sincerely,

Alwin & Norma Meincken

To the Kentucky Public Service Commission:

As executive director of the Public Life Foundation of Owensboro, I wish to inform the commission of the full support our foundation has for the effort of Kenergy Corp. to ensure the availability of high-speed internet in all areas of Kentucky, specifically our rural communities.

Our foundation's focus is on early childhood education. In exploring ways to expand access to quality early childhood education, we have become familiar with the digital divide that impacts low-income and rural families. The need for high-speed internet for these families has been exacerbated by the pandemic. With children from pre-kindergarten to high school relying on the internet for access to virtual learning materials, the Public Life Foundation urges the Kentucky Public Service Commission

to do all it can to clear regulatory and legislative barriers to broadband service to every student.

David Boeyink, executive director

**Subject:** Case No. 2020-00215 Kenergy Broadband

Kentucky Public Service Commission,

My name is David Dockrey and I reside at 3883 Brown Road in Madisonville, KY 42431. Our entire area near my house does not have a goof internet provided option. I am currently hooked up for DSL through AT&T which does not work most of the time and in fact has been down for the entire month of August. When the line is up, the speed is so slow that I cannot down load effectively and you can forget about uploading.

This email to to support Kenergy bring broadband in my area and to my home. The case no. is 2020-00215.

My daughter is soon moving into a house at 3889 Brown Road and she will need this as well. My grandchildren currently will not be able to have internet which is necessary for on-line school this fall.

Thank you for your consideration in this matter to improve the quality of life in Kentucky.

Regards,  
David Dockrey

RE: Case No. 2020-00215

Dear PSC Commissioners:

The 4 Star Industrial Park is located in Northwest Kentucky and is an inter-local agreement between the counties of McLean, Webster, Union and Henderson. As most of us are aware, the current pandemic has amplified the importance of having access to high-speed broadband for remote work and virtual learning, especially in our rural areas where they have either no service or sub-par service. Affordable, reliable, high-speed, broadband has become an essential utility for today's economic development opportunities both residential and commercial. It is a critical need for those areas to remain sustainable, to grow, and to develop, similar to how rural electrification was back in the 1930's.

The 4 Star Industrial Park Board of Directors fully supports Kenergy's efforts and its intent to help provide this critical infrastructure need in our counties and all of the counties that Kenergy serves in western Kentucky. We recommend that you grant their waiver request and provide any additional support they may need to move forward with their broadband efforts. If they are granted the ability to do so and are successful, having such a quality broadband infrastructure would also greatly improve our entire region's ability to promote and attract businesses and individuals.

Thank you for your consideration of this important project. We know it will positively impact economic development in western Kentucky.

Sincerely,

A handwritten signature in black ink, appearing to read 'Doug Bell', is written over the word 'Sincerely,'.

To whom it may concern,

Our family and many other families on McPherson Road are in much need of high speed internet. Since the pandemic the need for high speed service is mandatory in our daily lives. Our daughter needs internet for school, my husband for his work and for me to further my college education. Our family and many other families on the road have tried communicating with spectrum and other internet companies, only to be turned down or told that we must pay ungodly prices to receive high speed internet. Please, please, please consider helping us and the many families around us.

Sincerely,

Esta & Dillon Rose

I have a hard time understanding why living in the country limits us from having broadband. We live 10 minutes away from town. Even people who live less than 5 minutes receive spectrum. My biggest concern is my grand children don't have the sufficient WiFi to do school work. It's not that people don't want broadband it's they can't get it. It would be profitable for the company to offer it here. Due to there are so many people that would pay for it. It is beyond reasoning when we have so much technology in this world. But, yet we still aren't offered technology that is needed to educate our children. I ask you please change this so we could at least have the access to broadband for the future of educating our children.

Thank you,

To the Kentucky Public Service Commission:

I support the effort of Kenergy Corp. to ensure the availability of high-speed internet in all areas of Kentucky, specifically our rural communities. As a member of the Daviess County Public Schools district community, it is essential that we are able to connect all students to online learning and digital information, especially now as schools are conducting classes virtually. Every child has the right to a meaningful learning experience, and extending broadband services into the homes of every student is an important step in making that possible.

At our home we do not have internet and it would be wonderful to have it. Some people have a slow version of internet on our road, but most are in the same boat as us. We call frequently to get internet but it hasn't been possible yet. Help would be appreciated.

Hello this is Scott Howell (255 Sycamore Drive, Livermore, KY 42352). I am writing in regard to Kenergy's press release of exploring broadband services across its infrastructure. I reside in the Hickory Hills subdivision located about a half mile south of Livermore off of HWY 431. Within our subdivision of about 30 houses the only available internet options are AT&T 1.5 mb fastaccess DSL or satellite. Currently, video conferencing and home schooling is very challenging with the lack of reliable connection. We would greatly appreciate and support Kenergy's venture into offering a higher speed and more stable connection especially during these pandemic times. Thank you, Scott

Howell
