Case 2020-00290

To Whom It May Concern:

This is in regards to the increase proposed for the water district in Center Ridge Community in Murray, KY.

Just to let you know 60 percent or more of the residents in Center Ridge do not live there full time, this is basically a fishing community.

There are some full time residents but we are may go there once a month and sometimes not that often and to think we would have to pay that increase would be ridiculous.

Please reconsider this proposal and certainly take in consideration of those that do not reside there all the time.

Regards,

John A. Wilson
