PUBLIC SERVICE
COMMISSION

To whom it may concern:

This letter is being written in regards to Kentucky Utilities' request for a rate increase in their electric rates.

It is unbelievable that KU would be asking for a rate increase during this pandemic that we are going through. So many people are laid off from work and their unemployment insurance will be ending soon. Also, I am on a fixed income (retired) and this increase that KU is asking for will be more than my social security increase for 2021.

In my opinion, KU does not need a rate increase because their rates are already too high. Therefore, I am asking you to deny this rate increase and not approve any rate increase at all.

Your job as the Public Service Commission is to protect the consumer, Not KU.

Thank you for your consideration in this matter.
