RE: KU proposed rate increase
Case # 2020-00349

I am OPPOSED to the proposed KU rate increase as noticed in the Middlesboro News (see attached). The KU has had annual increases for the last several years, and these increases causes hardships to many individual households and businesses. Thank you for your attention to this matter.

Respectfully,

Glynnna Brown

KU is also proposing changes to the rates for other customer classes. These customer classes and their associated annual revenue changes are listed in the tables shown below. KU is also proposing to change the text of some of its rate schedules and other tariff provisions and to add two optional rate schedules: General Time-of-Day Energy Service ("GTOD-Energy") and General Time-of-Day Demand Service ("GTOD-Demand"). KU's proposed rates reflect a proposed annual increase in electric revenues of approximately 10.4%.

The estimated amount of the annual change and the average monthly bill to which the proposed electric rates will apply for each electric customer class are as follows:
