PUBLIC SERVICE  
COMMISSION

Dear Sirs/Madam,

I am writing to plead for your mercy asking that you decline the Kentucky Utility Rate Increase request. All utilities continue to ask for and receive rate increases, the cost of groceries and seemingly everything else continues to increase while sadly our fixed retirement incomes (I'm a retired teacher) increase very little if any. Five to ten dollars a month doesn't sound like a lot to them but when every utility increases that quickly adds up for those of us trying to get by.

I live in a very modest small home, drive an inexpensive car, haven't taken a vacation in at least 25 years, pay all of my bills on time with no room for extras just to make it from month to month.

Thank you for your time and consideration.
