I am writing to express concern over the approx. 10.7% increase in residential electric rates proposed by the Kentucky Utility Board (KUB). Those of us who are KUB customers in southeast Kentucky are struggling to just stay afloat. With the loss of the coal industry and its supporting industries, unemployment is at very high levels. We don't expect raises anymore, those of us with jobs are just happy to still be working. COVID impacts have further burdened our financial situation. Our older residents got a 1.3% increase in social security payments in 2021--for many of them, that increase will not even cover the increased cost of electricity proposed by KUB. Imposing the proposed 10.7% will make a very bad situation even worse here in southeast KY.

While other areas of the state may be faring much better than southeast KY, we are hurting. Please do not approve such a large increase in electric rates for our part of the state.

Hello,

I am writing to ask you *not* to approve KU's proposal to increase electric and gas rates for Louisville residents and businesses by almost 12% and 10%, respectively (Case #2020-00349).

Even with the addition of the economic 12-month relief surcredit program, the proposed rate increase would be incredibly damaging. Our community is already struggling from an economic downturn, unprecedented job losses, and an ongoing global pandemic—and all without substantial State and Federal relief efforts.

The future is already uncertain; there is no need to exacerbate that uncertainty with an additional financial burden. Please consider these consequences in your review of LG&Es proposal. Now is *not* the time for a rate increase in essential utilities.

I'm looking forward to hearing from you. Thank you.

To Whom It May Concern:

Regarding Case # 2020-00349

I am against the proposed increase of my electric bill. I am effectively on a fixed income because I work for the Commonwealth of Kentucky in a state position. I have not received a raise for about five years. The only way I would receive a raise is if I got a promotion or the state raised the wage for my pay grade (which is why I got my last 5% raise, about five years ago). I am not likely to get a promotion and the state is not likely to raise the wage for my pay grade, again. Please don't allow the power company to increase my electric bill. Taxes and homeowners' insurance both went up, this year. This is one bill increase that can be prevented.

Thank you for your attention in this matter.

Sincerely,
