State the nature of your concern: I believe raising the electric bill is tragic. We are suffering from pandemic . I am unemployed, bc the business I was working for shut down two weeks ago. So many people have or are about to loose their jobs. LG&E already charges too much. They should seriously take a look on people's life and how families are struggling to get

through this rough period. It's outrageous to rise up utility bills now.
Have you contacted the utility about the problem: No

State the nature of your concern: Proposed rate increase. This is total greed. With so many people out of work and business closing because of covid, people can not pay there bills now. It will take a long time for the business that did not close to recover which means lot of people will still be out of work. Also some of these peoples unemployment will run out and with no

jobs out there will have no income. A rate increase at any time is not good, but even mid 2021 is not a good time. Have any of these people lose there jobs or take a pay cut ?

From: David Weaver [REDACTED] >
Sent: Monday, December 7, 2020 9:02 PM
To: PSC Consumer Web Inquiry <PSC.Consumer.Inquiry@ky.gov>
Subject: LG & E Rate Increase Proposal

To whom it may concern,

After just learning of LG & E's proposal to seek a substantial rate increase for both electric and gas service I am absolutely flabbergasted. How heartless, insensitive, and clueless are the executives at LG & E? To seek a rate increase on the heels of the COVID pandemic that continues to cripple our citizens and economy is beyond words. If they truly need this massive increase to implement the upgrades they say they do then let's see concrete evidence of that first of all. If this is indeed proven that the upgrades cannot be completed without the rate increase then postpone the upgrades for one year until our economy and citizens have had an opportunity to recover. My wife lost her job all the way back in March and we have really struggled to make ends meet. There are many worse off than we are and this will force an even more severe hardship on them to where they have to make decisions between electric and gas service and things like medication, food, and clothing. I implore you, DO NOT LET THIS HAPPEN under any circumstances. I'm sure they will raise rates the 4% they are allowed to do without your approval anyway. That is always the answer with any of these municipalities,

just raise the rates and strap it on the backs of the consumers.

Sincerely,

David S. Weaver

Subject: Case Related Question

Regarding lge increase for 2021,

I live on disability and I'm sure MANY others are pay check to pay check or fixed incomes. We are in a oandemic on top of it. The people of Louisville cannot handle more increases when so many are drowning already. So many people are fed up with violence and complete disregard of its people with things mayor does daily. People are moving out of this area if can cause ALL the increases that do not need to be done. Think about your actual people. Most arent surviving as it is. Others are cutting back on essentials to pay like meds and food. Food pantries have seen a severe increase of help needed. Liheap seems to be pretty busy wigh people needing financial help.. So much so liheap is also helping pay water bills because too many are unable to pay bills. Someone needs to clearly remember its customers and learn about its community it is drowning already. Finagle your money some other way and stop this increase.

Subject: LG&E request for increase

I am outraged that LG&E wants an increase with so many in Louisville struggling to meet monthly bills due to COVID. Everyone is having to cut back on expenses so why don't they? I have been upset that during the early months of this year when I didn't use gas to heat my home to cut back, they charged about \$24 + monthly for gas even though I didn't have my heat turned on. Then mid year they raised that amount to \$27+ for gas when it wasn't used. Multiply this times the many customers they have and it is quite a very large sum of money. Now the want an increase? People that have lost jobs, people that are on fixed incomes just won't be able to afford it!!! Please deny their request!! Have compassion please! Thank you for listening!

Good evening,

My name is England Creswell-Collier. I am a consumer and account holder of LG&E and are asking you to please decline their proposal.

I am on their Budget plan and they have changed the rate twice already this year.

It's already bad enough that my household has experienced financial difficulties like other from COVID such as unemployment.

But unfortunately, mine is a household that doesn't qualify for any of the assistance programs available.

Therefore, please consider my comments when making your decision.

Thank you for your time.

Subject: Vote NO on Case No. 2020-00350

I am a longstanding customer to LG&E and have lived here in Louisville my entire life. I have even never missed a payment or even been late before. When I opened my bill this month to see a 2 page letter from LG&E in reference to Case No. 2020-00350, to say that I was upset is putting it nicely. Please VOTE NO to their application for a rate increase. As a customer who would be paying this increase I am FIRMLY AGAINST THIS. This amount of the increase is outrageous, not to mention poorly timed during all that customers are having to deal with financially at this time. LG&E would be just adding to that stress. They need to re-examine their financial budget and figure this out within their current budget like the rest of us are having to. Many customers have had work hours cut and lost their jobs. This increase is a slap in the face to them. Please take my comments to heart and consider them carefully. Thank you in advance for your time reviewing my email.

Utility Name: LG &E

State the nature of your concern: My concern is the increase they are attempting to push on us. Because they have a monopoly they can and will do whatever they want with no care the impact. Between the utility increases and the constant property tax threats for the schools, many that can afford to are leaving or planning to leave Jefferson County. Then the business

bill increases also get passed to the consumer so this is a bigger hit than what is advertised. Someone better look into what utilities run in the surrounding counties, because if this goes through nothing is holding us here. The governors constant shutdown has crippled us, might as well move somewhere and get a fresh start
Have you contacted the utility about the problem: No

State the nature of your concern: I am writing in concern of the next LGE rate hike. There are people that are not even getting a paycheck, no unemployment or anything. This is not the time for raising taxes, rates or anything on any kind of bill what so ever. I mean where is the common sense any more? If you all allow this rate hike you all are part of the problem plain

and simple. Don't be part of the problem. Don't let LGE raise their rates. I know and understand LGE is trying to complete projects that may cost millions or even billions, but they should have to look at their budgets just like anyone else right now and lower their costs on anything they can. I know they have lowered their department budgets but they need to do more wherever possible. A lot of people (even the elderly on monthly budgets) can not afford to keep raising their bills when their paychecks don't go up. I didn't contact the utility about this problem because you all are the ones that approve these hikes.

Have you contacted the utility about the problem: No

We are already suffering to pay bills in the city of Louisville. LG&E, MSD, and Louisville Water seem to have the ability to keep asking for rate hikes whenever they want. Please look at the amount of money that is being paid to executives and ask where that money is coming from. We can't keep giving them an open checkbook. We the people of Louisville are tired of our rates rising. All of us are struggling right now and it is very insensitive to ask for another hike. We don't feel like anyone will stand up to them. Thank You Mike Harper

Sirs

I am totally opposed to the high rate increase being sought by LP&G. According to their spokesperson, they want the money to place electric charging stations among other things. How many electric cars are there in the city? This is ridiculous! While everybody is suffering by the Covid19, a lot without jobs, others trying to make ends meet with the limited income, LG&P, with the highest salaries paid to executives and union members, want to increase the rates by over 11%. Shame on them and shame on those who approved the same.

Subject: Price hike

Hello, I just read an article on a possible price increase..I totally disagree with this crazy increase! I'm on a fixed income and have cut every corner in order to "try" and pay my bills. Southland mobile home park in which I live just went from \$320 a month to now over \$410 a month. So now lg&e wants us poor people to pay for electrical charges for cars? Has everyone lost their minds? I will never have a electric car, unless someone wants to give me one and even then I probably won't want it!!! I'm on the edge of being homeless as it is and barely have my heat on because I can't pay a high bill, and now this. I beg you to stop this now. Poor people should not be forced to help out the rich folks who most likely will be the only ones whom will have electric car anyway. Honestly the whole electric car is crazy anyway, it can't be cleaner, where is the electric coming from? The air? Lol. I beg you to tell lg&e NO. Thank you, Sherry Cook

To: PSC Public Information Officer <PSC.Info@ky.gov>
Subject: LG&E Increase Case# 2020-00350

To Whom It May Concern,

I received along with my bill a notice informing me of the proposed increase by LG&E. I find in the midst of this horrible pandemic and with people being out of work due to COVID related shutdowns and parents helping their children with Non Traditional Instruction that LG&E is wanting to raise their rates yet again. I have been off and on from work throughout this year. First with my own personal illness, the laid off due to COVID shutdowns, & now for NTI for JCPS for my two special needs children. People are struggling right now to make ends meat. A lot of people are out of work due to no fault of their own and cannot put food on the table. A lot of people cannot afford Christmas presents for their children who still believe in Santa. Suicide and drug addiction is at an all time high due to this pandemic.

I myself noticed that my LG&E bill almost doubled from last month. I understand that costs go up for businesses, but when your customers are struggling to buy food, medicine, & essentials I think an increase at this time is a punch in the gut. A lot of people are on fixed incomes and any increase in their LG&E bill determine whether they can afford to buy their medicine or to feed themselves and their children.

Communities are suffering all across the commonwealth. I think a price increase at this time is poorly timed and another burden added to individuals and families that are already struggling to pay the already high cost of gas and electric.

Thank you in advance for your consideration in this matter.\

Sincerely,

Tara L. Bohn

Subject: Proposed increase in electric & gas for LG&E customers

To Whom It May Concern,

I just received my LG&E bill with the proposed increase in the electric & gas bill starting 1/1/21. This is very discouraging! The citizens of Louisville and everywhere are struggling with paying their bills now. How can we expect them to pay more when they can't pay their bills now. Some people have not worked in months and even when they were working their paychecks were stretched very thin. This company continually raises prices to expand its services into other counties. I am tired of having to pay more for them to extend services to other counties and not update our services. They never offer customers a break when the cost of providing services costs less. Customers need a break! I am asking respectfully, to deny LG&E's request to increase customer rates.

Thank you,

Teresa Casey
