

December 15, 2020

Dear Sir,

I am writing in response to the notification of the proposed increase in the rates for gas and electric utilities. While I can understand an increase may be necessary, the proposed rate increase is excessive and will pose a hardship on people who are already experiencing financial hardships due to COVID. Scaling back the proposed rate increase is something that must receive the utmost consideration. While it might be beneficial to make capital improvements, a reduced number of improvements would be so beneficial to so many people. I urge you to re-evaluate the scope of this rate increase.

Sincerely,

Patricia McDowell
