

April 13, 2021

To: Ky Public Service Commission

Subject: Case # 2020-00350

our family opposes your latest proposal to raise rates at this time since most families are barely keeping their financial 'heads above water' because of the Covid19 pandemic especially.

The average family's utility bill, being raised by \$277, per year, is totally ridiculous and very unfair to L&E customers.

Please listen to REASON and support our objections.

RECEIVED

Thank you,

Mary J McClung (L&E customer)
