PUBLIC SERVICE
COMMISSION

To Whom it may concern

I am writing to you about the letter I received about your request for an increase in water service. It is hard on me and my husband as it is to pay the water bill now that when you increase it I'm afraid I won't be able to pay it. We live off of Disability and we barely make it some months. We live in Middlesboro, Ky 40965 and we are considered very low income and I think that the amount you are asking for is ridiculous. Please consider all low income families are struggling right now. I would like to opt-in for the low income rate.

Please take a look at what's going on and not raise the bills. You already raised it once. Thank You
