

William McAllister

500 Muncy St  
Ashland, Ky. 41101

Dear Sir,

I see no valid reason  
for K.P. to seek or to have an  
increase.

There is no repayment  
to customers when electricity  
is out for hrs. or even most  
of 24 hours.

Many people are as I -  
they are older & live on  
fixed incomes.

Thank you,  
Helon McAllister

To Whom it May Concern,

I am a Kentucky Power Customer. I want to voice my concerns about a 25% raise in utility cost.

I am a senior citizen with an income of Social Security. My income seldom is increased. I have never received a 25% increase at any time. When there is one The Medicare takes the most of it.

I am wondering if possibly a CEO could take a decrease in wages to help with your added cost or loss of income. People everywhere are struggling in this time of the pandemic. Not every<sup>one</sup> has a high wage job. For sure a 25% increase is the largest I have ever heard of anyone asking or receiving at any time or <sup>for</sup> anything.

Please do not grant this huge amount. It makes the effort to get ahead almost impossible.

Thank you,

Hattie Baldridge

Dear Public Service Commission,

We are very opposed to  
case number 2020-00174!

To those on a fixed income,  
with winter approaching  
and during a pandemic,  
the financial burden would  
be unreal.

Please do not raise or  
increase our electric bills.

Thank you,

RE: CASE No 2020-00174

FROM: Charles & Gail Rows  
1412 Montgomery Ave  
Ashland, Ky 41101

What is KP thinking?  
25% increase (3rd in 5 years)

In "Times Like These", someone must be mentally unbalanced. Electricity is truly important, but for people seeking wage increases, what about those who are having trouble paying bills or trying to meet any kind of bills such as:

1. Retired people
2. Laid off workers
3. On + On

Please ReConsider and RETHINK!

RE: PROPOSED ELECTRIC RATE INCREASE, NOVEMBER 2020

TO WHOM IT MAY CONCERN:

I AM ONE OF THOSE PERSONALLY CONCERNED. MY HUSBAND AND I ARE BOTH PAST 70 AND ON A FIXED BUDGET. HE HAS BEEN RETIRED SINCE 2006 W/NO RAISE IN PENSION DOLLARS. OUR SOCIAL SECURITY RAISES ARE MINIMAL, USUALLY THE RISE IN OUR MEDICARE TAKES MOST OF IT. I'M SURE YOU'VE HEARD ALL THIS MANY, MANY TIMES.

WE REALIZE COMPANIES HAVE EXPENSES THAT NEED TO BE OFFSET. BUT IF ONE 'GOOGLES' AMERICAN ELECTRIC/KY POWER DONATIONS 11 PAGES COME UP. AND WHILE THEY SEEM TO BE A VERY GIVING COMPANY, IT WOULD SEEM TO ME THEY ARE DEDUCTING DONATIONS FROM THEIR BOTTOM LINE AT MY AND YOUR EXPENSE. THESE CAME FROM JUST ONE PAGE: and yes, I know while these are not all pertinent to Ky Power they are an indication that management has their priorities off kilter.....

3/24/20 - \$60,000 FOR COVID RELIEF  
6/25/20 \$36,000 ADD'L COVID RELIEF  
11/5/20 \$25,000 TO CITY OF ASHLAND FOR DOWNTOWN DEVELOPMENT  
7/23/20 \$75,000 TO CARES/HELP  
11/17/06 \$100,000 TO NO CHILD LEFT OFFLINE  
12/01/17 DONATION OF 2.15 ACRES FOR ANIMAL SHELTER  
9/04/19 \$45,000 TO RED CROSS TO DISTRIBUTE FREE SMOKE DETECTORS  
10/14/20 BUCKET TRUCK TO BIG SANDY TECH

MIGHT I OFFER THE SUGGESTION TO AEP/KY POWER THAT THEY COULD BENEFIT ALL OF THEIR FELLOW CITIZENS BY OFFERING A LOW COST PRODUCT AND PAYING A DECENT WAGE TO THEIR EMPLOYEES RATHER THAN WRITING CHECKS FOR PR AND TAX BREAKS. PLEASE TAKE THIS INTO CONSIDERATION AND DO NOT GRANT THEM ANY RAISE.

THANK YOU FOR YOUR ATTENTION,

SUSAN ROSE ROBINSON

PUBLIC SERVICE  
COMMISSION

I urge the Public Service Commission to reject the proposal by Kentucky Power to increase our rates by 25% ! This is an unreal increase to impose on us with winter approaching and in the middle of a pandemic!

We senior citizens, low wage earners, churches, schools and small business owners cannot pay this. This increase will be more than many of us draw from Social Security!
