Frankfort, KY 40602

Re: Broadband in Western Kentucky

Commissioners,

I am writing to show my support of Kenergy's broadband deployment project. I want regulated electric cooperatives to be able to provide high-speed broadband services to my community, just as municipals and TVA cooperatives do today. Our community has limited, if any, availability to reliable, high-speed internet. This critical infrastructure is essential to business, healthcare, education and quality of life.

Extending broadband services to rural areas is the modern-day equivalent of rural electrification in the 1930's. Electric cooperatives have existing infrastructure throughout our region, which makes a perfect fit to be a broadband service provider.

I am requesting your approval of Kenergy's request for a waiver, which will expedite this project in a timely manner, ensuring electric cooperatives can secure financing for the buildout.

Thank you for your consideration of this important project, one that will positively impact my community and transform western Kentucky.

Sincerely,

Margie Abigail Crutcher

My family and I live in Kuttawa on Panther Creek Road and have electricity through Kenergy. I grew up here and we have always struggled with internet services. My parents both run/manage businesses from their home here in Kuttawa, as do I! I am constantly contacting clients all hours of the day and it's very hard to do so with less than reliable internet. I am also enrolling in online classes to finish my degree while staying home with our new baby. This will be extremely difficult with the internet service we have now.

We need your help! Please help us get reliable internet.

Thank you.

The Walker's.

Re: Broadband in Western Kentucky

Commissioners,

I am writing to show my support of Kenergy's broadband deployment project. I want regulated electric cooperatives to be able to provide high-speed broadband services to my community, just as municipals and TVA cooperatives do today. Our community has limited, if any, availability to reliable, high-speed internet. This critical infrastructure is essential to business, healthcare, education and quality of life.

Extending broadband services to rural areas is the modern-day equivalent of rural

electrification in the 1930's. Electric cooperatives have existing infrastructure throughout our region, which makes a perfect fit to be a broadband service provider.

I am requesting your approval of Kenergy's request for a waiver, which will expedite this project in a timely manner, ensuring electric cooperatives can secure financing for the buildout.

Thank you for your consideration of this important project, one that will positively impact my community and transform western Kentucky.

Sincerely,

I am a GED instructor. My only home internet is on my phone. While working from home during the COVID-19 shutdown, I was attempting to attend multiple meetings per day and help my students online. Unfortunately, zoom meetings depleted my available data in short order and I was left with a no working phone during peak hours. I desperately need affordable broadband and I'd be thrilled if Kenergy is given this opportunity to serve me and my neighbors.

Thank you for your consideration of this important project, one that will positively impact my community and transform western Kentucky.

Sincerely,

Natalie McPherson

I have an office in my home, have had for eleven years, and internet service is a constant weakness in my business. I depend on a satellite dish for my service and it is way less than reliable. As a tax practitioner, I rely heavily on my internet and would truly appreciate an opportunity to operate as if I live in 2020.

Thank you for your consideration of this important project, one that will positively impact my community and transform western Kentucky.
