To whom it may concern,

I wish to show my support for Kenergy seeking to provide broadband services in Daviess County, KY.

I live in the rural community of Philpot and we do not have access to top speeds with the current local internet service providers in the area for our actual address even if our neighbour 1 mile away has excellent service. Our network connection is slow and can be spotty.

With children, now home from school, opting for virtual online classes, we have a greater need for more data allowance. Our only option is pretty expensive but is necessary to their education. I also work from home so often have to switch to mobile data usage to help with uploading and downloading speeds.

A broadband service using the existing electric lines and infrastructure already in place, (if this is Kenergy's plan), would enable the best option for internet coverage without interference from trees, structures, a clear view of a satellite tower.

I fully support Kenergy to provide broadband services to existing customers.

Thank you,
Claire Caldbeck

I have had DSL internet with Earthlink for 15 years, now all of a sudden they are dropping me. Then when try to get At&T tell me they have nothing even though I have a land line and there At&t phone box on my property, there line runs across my front yard. My Grandson comes here every day for school. What am I to do ? Need help. Never dreamed this would happen.

This is an email to express my support for Kenergy of Western Kentucky to explore the opportunity of providing broadband services in my county of Daviess in Kentucky.

I cannot express enough how STRONGLY I support them in this endeavor.

The ONLY provider available to me is Spectrum.

Spectrum raises my bill every 12 months without notice and without improving my service.

Spectrum does this because they KNOW THEY CAN due to NO COMPETITION!!!!

I would QUIT Spectrum in a heartbeat if there was a competitive alternative.

Please allow Kenergy the opportunity to provide people in western KY counties an alternative to

SPECTRUM!!!

Thank you!

Respectfully,

Phillip L Higdon

RE: CASE # 2020-00215

I am in support of allowing my local Electric Coop "KENERGY" to provide Broadband Internet service. My little town of Philpot KY has very limited capabilities of fast internet. The one option we have has slow speeds and intermittent service due to old neglected underground wires.

Please allow us to have a better option for internet service.

Thank you,

Re: Broadband in Western Kentucky

Commissioners,

I am writing to show my support of Kenergy's broadband deployment project. I want regulated electric cooperatives to be able to provide high-speed broadband services to my community, just as municipals and TVA cooperatives do today. Our community has limited, if any, availability to reliable, high-speed internet. This critical infrastructure is essential to

business, healthcare, education and quality of life.

Extending broadband services to rural areas is the modern-day equivalent of rural electrification in the 1930's. Electric cooperatives have existing infrastructure throughout our region, which makes a perfect fit to be a broadband service provider.

I am requesting your approval of Kenergy's request for a waiver, which will expedite this project in a timely manner, ensuring electric cooperatives can secure financing for the buildout.

Thank you for your consideration of this important project, one that will positively impact my community and transform western Kentucky.

Sincerely,

Travis R. Murphy
